HYPERTECH v2 SUIT

AUTORACING | SIZE: 44-60 (44-62 BLACK RED)

- Certified to the new FIA 8856-2018 homologation standard.
 - Super-lightweight and breathable two-layer suit incorporating thin stretchable panels for maximum comfort and effective regulation of body temperature.
 - Innovative soft lining material technology ensures breathability and comfort.
 - Strategically positioned Formula 1-derived stretch panels at lower back and sides, elbow, crotch and knee zones for enhanced flexibility, both in and out the car.
 - Alpinestars fully floating arm construction with stretchable knit fabric ensures minimal material resistance while driving.
 - Nomex® anti-static outershell fabric offers exceptional heat and flame-resistant proprieties.
 - Soft and thin wrist and ankle cuffs for maximum comfort and reduced weight.v
- Flat seam construction for reduced pressure points and improve strength.
 - Specially-designed soft collar incorporates leather details, knit fabric and secure hook and loop closure.
 - Alpinestars exclusive shoulder epaulette construction provides an effective feature for the extraction of the driver in the event of a crash.
 - Printed logos help maintain the suit's material integrity and reduce overall weight.
 - Premium YKK thin lightweight zipper personalized with Alpinestars leather puller, plus double slider for a versatile and customizable fit.
 - Sold with laundry bag for convenience and to protect material fibers.
 - Ultra fit design.
 - Weight 265g/sqm.

TECH-1 ZX v2 GLOVE

AUTORACING | SIZE: S-2XL (S-3XL BLACK ANTHRACITE)

- Certified to the new FIA 8856-2018 new homologation standard.
- Flame resistant aramid fiber main construction with a bonded aramid lining to ensure optimal temperature control for maximum comfort and feel.
- External seams provide superior comfort and prevent any excessive pressure points forming on the hands while driving.
- Interior is sprayed with latex for improved grip and resistance.
- Outer grip zones for superb control and feel of the cockpit's control.
- Ergonomically designed grip technology on palm and fingers with strategically positioned silicon surface patterning for improved flexibility and control.
- Touchscreen compatible thumb and second fingertip.
- Extended cuff length in accordance with new FIA homologation standards for maximum protection against fire and heat.
- Ergonomic chassis design and pre-curved fingers for an improved performance fit to reduce driver fatigue while offering a secure and snug fit around the wrist area.
- Alpinestars cuff opening design with a 180° elasticated wrist for easy entry and a secure fit.
- External super-lightweight heat transfer design details for reduced material weight.

TECH-1 RACE v2 GLOVE

AUTORACING | SIZE: S-2XL

- Certified to the new FIA 8856-2018 homologation standard.
- Flame resistant aramidic fiber main construction is bonded for optimized levels of performance, comfort and improved safety.
- Combination of innovative material construction methods result in a significant reduction in the glove's weight as well as an extensively reduced material design.
- Full gauntlet single panel top construction for maximum coverage.
- Extended silicon printing on fingers and
- full palm for improved grip and feel.
- Pre-curved fingers and palm help for reduced fatigue while driving.
- Extended cuff length in accordance with new FIA homologation standards for maximum protection against fire and heat.
- Minimal seam construction for enhanced comfort, feel and weight-saving performance.
- Alpinestars cuff opening design with a 180° elasticated wrist for easy entry and a secure fit.
- External super-lightweight heat transfer design details for reduced material weight.

TECH-1 START v2 GLOVE

AUTORACING | SIZE: S-2XL

- Certified to the new FIA 8856-2018 homologation standard.
- Single panel top construction incorporates an aramidic fiber main shell for high levels of protection against flames and heat while providing superior levels of comfort and feel.
- Combination of innovative material construction methods result in a significant reduction in the glove's weight, as well as an extensively reduced material design.
- Box cut fingertip construction offers a seamless no-fourchettes design on the ring and middle fingers, resulting in a glove which is anatomically optimized for inside the confined cockpit.
- Ergonomically positioned silicone printed zones on palm for enhanced grip.
- Close-fitting, straight extended cuffs for a secure fit.
- Alpinestars cuff opening design with a 180° elasticated wrist for easy entry and a secure fit.

- Complies with FIA: 8856-2018 homologation standard.
 - Main upper constructed from supple, lightweight kangaroo leather for exceptional levels of comfort and durability.
 - Lightweight micro-porous padding around the heel and insole entrance for enhanced comfort while driving.
 - All graphics are printed for improved weight saving.
 - Extensive perforation zones on lateral and medial sides and tongue for optimized ventilation, breathability and comfort.
 - Tubular lining construction in para-aramidic fiber material for excellent levels of heat resistance, weight saving with reduced seams for enhanced levels of driver comfort.
- Tongue constructed from Fireproof elastic fiber to ensure an ergonomic fit as well as providing additional flame-retardant properties.
 - Alpinestars closure design features an extensive hook and loop grip strap and elasticated gusset Fireproof that closes across the instep for an ergonomic fit.
 - Patented one-piece design for a highly reduced material construction for greater comfort and performance in the cockpit.
 - The hook and loop closure ensures a secure and personalized fit and incorporates perforations for maximum airflow and comfort.
 - Lace-less design guarantees quick and easy in/out while also ensuring optimum weight saving.
 - Collar padding constructed from nitrile rubber for comfort and lightness.
- FIA/Alpinestars label on the tongue constructed from fireproof PU transfer.
 - Insole with Texon and micro-porous material on upper for comfort and lightness.
 - Micro-porous heel for additional shock absorbing and lightness.
 - Reinforced inner heel for additional comfort and effective absorption of vibrations while in the driving position.
 - Alpinestars exclusive lightweight rubber compound sole for improved sensitivity with the pedals, while the textured pattern ensures optimum levels of grip.

YOUTH NECK SUPPORT

ACCESSORIES | SIZE: OS

- Designed and developed for a fit that is specific to a youth driver's anatomy.
- Frame constructed from injected polymer compound that has been extensively impact tested at performance on a range of off-road surface and varying temperatures.
- Frame has been ergonomically engineered to promote contact with the helmet during impact – including rear support edge that fits closer to the body and raised chest to avoid hyper-flexion injuries - thus providing a solid surface which instantly channels damaging, compressive impact energy away from the neck and on to the support.
- Frame's anatomical profile promotes positive helmet contact in event of a crash while allowing driver freedom of movement.
- Rear stabilizer system helps keeps support in position and is also designed to channel extreme energy loads away from the spine by transmitting it across the shoulder and helping to avoid serious spinal injury.
- Ultra-lightweight EVA foam on the support's underside for comfort and positioning and to distribute the impact force over the widest possible area.
- Closure system for convenient engagement of support and to facilitate quick removal in case of emergency.
- The support is supplied with the easy-to-use strap system which allows use over or under the suit to secure the device on the driver.

BLACK
YELLOW FLUO
654 0118 155

SEQUENCE YOUTH NECK ROLL

ACCESSORIES | SIZE S/M - L/XL

- Hybrid kids neck protection with extended tail for high position stability.
- Ergonomic designed and engineered shape to fit kids from 6–10 yrs. and from 10–14 yrs.
- Double density core is made from a soft PU foam base embedding a hard layer EVA for energy dissipation.
- Bottom and internal soft section (neck side) provides comfort for the shoulder and neck, hard section on the upper part to give stability and provides force distribution when the helmet is impacting.
- Easy to use soft strap closure on the front part.
- Highly compatible with all other protectors and suits.
- Washable external cover with hook and loop grip rear closure.

BLACK RED
674 1018 13

BIONIC RIB SUPPORT

TECH LAYER | SIZE: S/L - XL/3XL
(YOUTH SIZE: OS)

- High performance ergonomic rib protection designed to offer comfort and support.
- Multi-layer main body construction for ultimate performance.
- Soft, advanced, poly lining for comfort.
- Dual density laminated padding, incorporating 3mm high density padding against the body for improved comfort, laminated with 4mm impact absorption EVA foam for effective impact protection and reduced vibration.
- Fiber-glass core for impact energy dispersion.
- External 500D advanced poly fabric for improved abrasion resistance maintenance.
- Slim and light impact dispersion shield for excellent shock dissipation and durability.
- Fully adjustable, elasticated, front strap with snap closure for secure support and comfortable personalized fit.
- Adjustable shoulder straps formed with soft and breathable 3D mesh.
- Additional hook and loop grip strap rear adjustment helps refine size adjustment.
- Perforated rear padding offers extra support and comfort.

TECH-1 KZ SHOE

KART RACING | SIZE: 2.5-13 (EXCL. 3 - 4 - 5.5 - 6.5) / 34-47 EUR (EXCL. 34.5 - 35.5 - 37.5 - 38.5)

- Advanced seamless thermo-welded construction consists of ultra-thin PU film and 3D mesh to provide supremely lightweight performance and maximum foot sensitivity thanks to the "sock-like" effect, with no pressure points on the foot for excellent comfort and fit.
- Sleek shoe profile follows foot anatomy and guarantees great fit and performance.
- Laser air-intakes and perforations on upper, with 3D mesh on tongue offer excellent breathability and comfort.
- External heel, ankle and internal toe reinforcements for abrasion resistance and protection.
- Alpinestars lace-lock system constructed from an advanced polymer resin guarantees quick, precise and secure closure of the shoe.
- Dual asymmetric closure system incorporates adjustable ultra-thin hook and loop grip strap plus aramid speed top lacing.
- System integrates Alpinestars exclusively developed wire closure system, which strategically envelopes the foot for optimal support and structure and offers durability, precise fit and secure closure.
- Collar padding constructed from PU foam for comfort and weight-saving.
- Soft microfiber collar is cut lower at the rear to allow greater achilles heel comfort and improved range of movement.
- Tongue features perforated soft padding for comfort and improved fit.
- Innovative Alpinestars foot counter for maximum performance: an ergonomic, polypropylene heel counter provides support and stability inside the shoe, while a flatter forefoot with die-cut ribbing provides greater feel on the pedals.
- Ultra-thin Formula 1 specification sole uses Alpinestars exclusive rubber compound for pedal sensitivity and grip, in both wet and dry conditions.
